

Immunogenicity

Preclinical studies

Clinical studies

Cell-based and LBA
Neutralizing Assays

Critical reagent
characterization / qualification

Expertise

- Bridging and direct bind formats
- Custom labeling of proteins including Biotin and Ruthenium
- Drug tolerance mitigation

Performance testing of reagents

Lot to lot consistency

Pre-validation cut point assessment

In-study cut point expertise

- Specialized confirmation assays
- Anti-PEG assessment
- Isotyping assays
- Biosimilar Immunogenicity
